

Change, Loss & Grief

Level One and Level Two sessions are designed to enhance the existing skills of people whose work brings them in contact with dying, death and bereavement. In order to gain the full benefit, it is essential to attend both sessions.

In these sessions, the differences of personal grief responses, family systems, religious beliefs and cultural attitudes will be examined. Also the different issues of the dying person and those of the family members will be discussed.

This will help to develop a greater understanding of Loss and Grief and augment effective communications skills.
